APPLICATIONS

CITY ISLAMABAD

CITY ISLAMABAD app is one of the major initiatives of the Government's "Digital Transformation of Pakistan" vision, carried under the initiative of ICT Administration.

The app offers regulatory, consumer utilities, and statutory services to the citizens of Islamabad. It bridges the gap between citizens and government departments through digital services delivery. The app, so far, consists of 7 sections and 44 services. The sections include e-police, Excise and Taxation, Capital Development Authority/Metropolitan Corporation Islamabad, City Guide, ICT Administration, Notifications and featured services.

E-OFFICE

E-office is an electronic system that has shifted the official work from manual to paperless methods. It is aimed at improving internal efficiencies in an organization through electronic administration. The e-filing system in the e-office program enables the electronic movement and tracking of files and the archival and retrieval of data. It is not only easy but also safe and will save a lot of time and stationary. In addition to this, the paperless administration methods have been helping a lot in carrying smooth official works without any risk amid COVID-19 pandemic.

COVID-19 Gov PK

An initiative of the Ministry of Information Technology and Telecommunication (MOITT), "COVID-19 Gov PK" is a mobile application, providing citizens with up-to-date information and guidance regarding Covid-19. Among its features, "Dashboard" gives real-time stats regarding Covid-19 cases in the country, "Radius Alert" informs users of Covid-19 patients (Self Declared through App and Confirmed Cases mapped against their CNIC Address) and Quarantine Location. The App is Gadgetized with Self Assessment and Global tracker.

BAYTEE APP

Developed Baytee app for the Ministry of Information Technology and Telecommunications. Designed for 51% of the country's population, "Baytee" app is aimed at empowering women through information and communication technologies. It provides multiple hassle-free services for the women of the country. The features of the app include advocacy programs on women's rights, news about women's laws and regulations, inquiry about schools and scholarships for women, finding nearby jobs and training opportunities, seeking health services in their area, and getting information about the nearest police stations and hostels.

COVID-19 HEALTH ADVISORY PLATFORM

The COVID-19 Health Advisory Platform, an initiative of the Ministry of National Health Services Regulations and Coordination (NHSRC), gives you the real-time authentic data of national and international patients of coronavirus, guidelines from the government, facilities provided by the government, flight schedules and official decisions regarding this, and much more.

PM TIGER FORCE

Pakistan Citizen Portal facilitated the data collection process of PM's Corona Relief Tiger Force, a voluntary force prepared by the Prime Minister for assisting the government in its relief efforts with timely data collection and management.

PORTALS

CORONA CHATBOT

An initiative of the Ministry of National Health Services Regulations and Coordination, "Corona Chatbot" is a platform for awareness of coronavirus. It is powered by hybrid artificial intelligence that gives detailed information regarding the virus by answering basic questions.

YARAN E WATAN

“Yaran-e-Watan” is a not-for-profit, two-way engagement initiative between the Government of Pakistan and Pakistani Diaspora Health Community which enables overseas Pakistani health professionals, not limited, to become part of the national fight against coronavirus which is the present pandemic faced by the nation. It has diverse partners, from government institutions, diaspora organizations, entrepreneurs to international development partners. The program was launched by Special Assistant to the Prime Minister on National Health Services Dr. Zafar Mirza on April 23rd, 2020.

PID COVID DASHBOARD

Developed the COVID Dashboard on the Press Information Department website where information/statistics regarding COVID data are shared.

MED TRACK

Monitor and analyze up-to-date cases of COVID-19, with follow up by health experts. Family tree's data from NADRA, foreign traveler's data from FIA, and live location and contact details of affected people through PTA are incorporated.

CENTRAL COLLABORATIVE PLATFORM

Central platform initiative was taken by the Ministry of Information Technology and Telecom to house information regarding the information of smart portals, apps & IT initiatives taken by a different national Government department for ease of doing business with fast implementation plan throughout the country, by sharing of information of developed products with all concern department, thus saving time and human resource

AGP PORTAL

Linked an online portal through a button on the AGP website, for citizen's feedback regarding any information related to any project.

MOIB PORTAL (OPR + ABC + CML)

Portal developed to create a less paper environment by automating the process of the OPR, ABC, and CML for quick and transparent decisions and fast processing.

REVAMPING OF GOP WEBSITES ON PRESCRIBED 3G TEMPLATE

Shifted government websites of several ministries and departments to 3G Template approved by the Ministry of Information Technology and Telecommunications (MOITT) on the directions of the Cabinet Division to enhance their accessibility to the general public
